Are you an IT leader with a passion for technology, security, and innovation? RAC is looking for an IT Manager to lead our IT strategy, governance, and compliance while ensuring a secure and efficient technology infrastructure. If you have a strong background in IT management and regulatory compliance, we want to hear from you!

KEY RESPONSIBILITIES

- Develop and execute IT strategy ensuring alignment with RAC's strategic objectives, governance, and compliance.
- Oversee design, implementation and maintenance of IT infrastructure, including network, cloud solutions, and system upgrades to ensure high availability and performance.
- Ensure regulatory compliance with data security and IT governance standards.
- Develop and oversee the IT budget, ensuring optimal investment in technology, cybersecurity, and digital transformation initiatives.
- Implement robust disaster recovery and business continuity plans to mitigate risks, minimize downtime, and ensure operational resilience.
- Manage vendor relationships, IT budgeting, and cybersecurity planning.

WHAT WE ARE LOOKING FOR

- Bachelor's or Master's degree in Information Technology, Computer Science, or a related field.
- 5+ years of IT leadership experience in a regulated environment.
- Strong expertise in IT security, cloud computing, and data protection.
- Knowledge of regulatory frameworks, cybersecurity standards, and IT compliance.
- Leadership skills to drive IT innovation and operational excellence.
